Committed to meeting the needs of Northeast Dairy Farmers

- Founded as a value priced commodity supplier, FCI has developed into a competitively priced full service dairy nutrition company.
- 6 Northeast mill locations and flexible management structure provide resources and adaptability to meet changing needs of dairy producers.
- Competent, experienced consultants provide nutritional consulting, records analysis, Spanish translation and labor management services.
- Our Advantage is talented people in a flexible structure, providing customer driven products and services to Northeast Dairy Farmers.

Who we are at FCI

Locally owned and operated, our experienced FCI team is comprised of nutritional consultants, mill operations, and office support staff working together to provide you with the best advice in the dairy industry to attain your farm's goals. Our belief is that we can better meet your needs if we are your on-farm nutritional consultant and feed provider all in one. Our goal at FCI is excellent customer service. We will work one on one with you to provide quality support in key areas of your dairy business. Your concerns are our concerns and together as a team we will provide you with the tools necessary to help you attain your goals on your dairy farm:

- Commodity contracts and advice on when to contract backed by years of experience with commodity markets and an excellent track record of saving our customers money
- The owners and management of FCI provide financial support and leadership for dairy policy issues at State and federal levels
- On farm nutritional consultations and farm audits with leading dairy industry professionals
- Farm specific ration formulation to optimize herd nutrition, milk production, and income over feed costs
- We rely on the latest in research and our experience to bring you up to date feed additive knowledge and support
- Forage and feed quality testing
- Friendly faces and voices always willing to answer your questions
- Competitive pricing with no hidden fees to support the above
